

# Our People. Your Platform. Your Process.

We are your scalable, nimble, knowledgeable security partner.

## Managed Security Services Tailored to Eliminate Cyber Threats

SecureOps is transforming the Managed Security Service Provider (MSSP) industry by providing tailored cybersecurity solutions proven to protect organizations from cyberattacks. We deliver client value through monitoring, assessment, compliance, and incident response solutions

## Collaborative Cybersecurity

### SecureOps CoPilot™ Methodology

Our clients aren't expected to fit into our framework, but rather to work with collaborative teams with one goal in mind; help your company be as secure as possible.

No more "one size fits all" black box or having your tickets go into a randomly assigned queue. All of our client partners have a named resource managing their account; either full-time,

**You get as many of our resources as you require. No more, no less.**

### Security Monitoring

Triage & investigation of Events using your custom SIEM, Ticketing System, and Playbooks

### Vulnerability Management

Full vulnerability management lifecycle using your scanning tools and playbooks

### Security Infrastructure Management

Keep all of your tools running in an optimized, secure, documented, and ITIL compliant process using your own virtual team

#### Canada

Address: 1550 Metcalfe Street, Suite 502  
Montréal, Québec, Canada H3A 1X6
